6/2/2022

E. A shortcut to 'RLControlPanel.exe' is created on the user's desktop and can be used to.

1. Access Expressopay
2. Verify system information
3. Verify cloud connectivity
4. Verify currently installed RL App versions
5. Enable/Disable .Net Proxy
6. Create Expay+ demo database using production database.
7. Run available RL Apps
8. RLControlPanel will check the cloud for App updates when started
